

Book reviews increases our ability to get more books for SWAG. Please do your best to write a review of this book and send it to tracy@wncdotnet.com. Or jot notes on this piece of paper and hand it to a leader when you're done.

Basic requirement is a couple of lines of text. Some idea's to think about when writing a review.

What did you like about the book? (i.e. structure of the book increased depth of learning as it went on, topics laid out well according for the topic)

What did you not like about the book? It's okay to say the presentation of the material sucked for what the title and synopsis suggests it's for.

Were there any errors found in the book?

Would you consider getting a book by this author again?

Would you loan or sell this book to colleagues?

Thank you for your time and consider sending in a review.

Don't forget we occasionally have book swap/sales at our monthly meeting.
